## RAWAT

### Web-Developer

## ABOUT ME

Hello I'm Shubham Rawat, a 20-year-old web developer from Delhi with a CBSE schooling background. My passion lies in crafting user-friendly digital experiences, where innovation meets aesthetics. I am a versatile front end web developer and Knowledgeable in graphic design tools for effective visual storytelling, proficient in frontend technologies as well in backend , creating seamless user experiences.

## EDUCATION

- 2022  
Class 12th from CBSE BOARD Delhi
- 2023  
Pursuing B.COM(HONS) From DU SOL
- 2023  
Web- Development Course  
Diploma in Computer Applications.

## PROJECTS

- Photographers Portfolio Website  
In this project, I mastered pixel-perfect work, adeptly utilized animations, and efficiently honed my skills in responsive web design and front-end development
- E-Commerce Site  
In this project, I gained expertise in integrating front-end with Python databases, explored Django framework, seamlessly linked the site with payment gateways, and effectively applied Python concepts in practical projects.
- Apple Vision Pro site (Clone)  
I cloned the Apple Vision Pro website to explore HTML canvas concepts, delved into advanced CSS integration, and utilized JavaScript for logic building, enhancing my understanding of web development.
